Inspiring You to Build a Business You Love!

[HTTPS://OSG.LINK/SPEAKER](https://osg.link/speaker)

When I'm not behind the microphone podcasting, crafting compelling articles, or delivering transformative consulting services, my passion lies in energizing small businesses with the indispensable FUNDamentals of Success. I have a track record that spans nearly three decades of supporting small businesses which includes sharing on the stages of tradeshow floors for years. I'm humbled to bring a wealth of experience and insights based on the knowledge I gained over the years. Thanks to the countless interviews, conversations, and projects with thousands of small business owners and experts.

As the founder and co-host of the industry's most enduring and widely-listened-to podcast, The 2 Regular Guys, my expertise extends beyond traditional formats. I've orchestrated dynamic workshops, captivated audiences as an event emcee, and even broadcast live podcasts and videos to elevate the events that invite me. Let's think outside the box together.

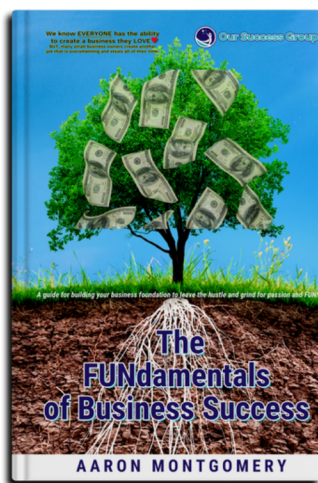

Endorsed by New York Times best-selling author Jack Canfield, I hold a certification as a Success Principles Trainer. Additionally, my virtual skills certification equips me to deliver high-impact presentations across digital platforms. Long before the advent of the pandemic, I was already a seasoned user of Zoom and various other online presentation tools should your event call for that.

How can I amplify the impact of your event? Explore my portfolio of Presentations and let's arrange a call to tailor my contributions to your specific needs. I firmly believe that everyone possesses the ability to build a business they love, rather than a time-consuming job they endure. All it takes is a rock-solid business foundation coupled with the right mindset, and success is not just possible—it's inevitable. Allow me to infuse your event with this invigorating ethos, and witness how your attendees depart, not just motivated, but primed for triumph.
