

**Red** - Bleed Area  
**Black** - Product Dimensions  
**Blue** - Safe Area

1. Layout your design in the PLACE ART HERE group.
2. The BLACK line shows you the approximate dimensions of the item for alignment.
3. Any elements of your design that are important like text or monograms must be inside the "safe" BLUE line.
4. Do not delete the DO NOT TOUCH layer, just hide the group before saving the finished design as an sRGB JPG file in full resolution.
